EXPERIENCE

Bombay Softwares

04/2024 - Present

Executive - UI/UX Designer

Ahmedabad, India

- Botstream: Led the UI/UX design for an AI-driven web app that summarizes uploaded documents (PDF, CSV, database, URLs) and allows users to query the chatbot for simplified responses.
- Polls App: Designed a dating app targeting Gen Z users, focusing on intuitive navigation and interactive features.
- Sport Betting App: Designed a basketball-focused web app that calculates winning risks for teams, providing historical data and insights for strategic decision-making.
- PMO Tool: Developed user-friendly interfaces for a web-based project management tool, enhancing task organization and collaboration.
- Task Planner App: Created a daily task management web app with features for task tracking and prioritization.
- BS Website: Contributed to the design of several pages for the company's official website, ensuring a modern and responsive user experience.
- Taxi App: Created a seamless user experience for booking, tracking, and driver navigation.
- E-commerce App Redesign: Led the redesign of an e-commerce platform, improving usability and boosting conversion rates.

Immence
